

LOWER LIMB EXERCISES

If you experience joint pain, low back pain or you are concerned please discontinue. However do not be surprised if you experience a pulling tight sensation in the muscle you are working, that is to be expected if you have been immobile. If you find the exercise painful stop and discuss with your clinician at the next opportunity.

ANKLE MOBILISATION

- Sit on a chair up straight with your feet flat on the ground
- Raise your leg up and roll your feet in a circle as demonstrated on the picture
- With your leg up, point your toes down and then point your toes towards your chest as demonstrated on the picture

HEEL RAISE

- Sit on a chair up straight with your feet flat on the ground
- Raise your heels upwards, while keeping your toes on the floor
- Lower your heels back to the ground
- Once comfortable doing this exercise press down onto your knees and bring your leg up against the resistance of you hands
